

## Smart Board Presentation

### Steps for using the gallery essentials:

On the left panel click the picture frame

Click the folder labeled gallery essentials

Pick the subject

The subjects are broken down into smaller units

Ex. Geography: flags, landscape, maps

Under each section there are: pictures, interactive media and notebook files and pages

Search in these sections then click and select the one you would like to open

### Steps for using the online resources:

#### Using the standards (GLCE) with the Smart Board

Click the picture frame on the left panel

Click the “online resources” folder

Select the link “curriculum standards”

The Smart Notes website comes up

Click the words “United States”

Use the drop down arrow to select the state, grade level, and subject area

Click the search button

The next pages shows all the standards and tells you if it has correlated activities with the standard

Select the standard (GLCE) you would like to use

Click the correlated activities link underneath the standard (GLCE)

Shows you all the activities in the Smart technologies data base that match the standard (GLCE)

Select the activity

Download the activity

It will open up on your computer

You are now ready to teach that lesson

#### Using the teachers’ hub

Click the picture frame on the left panel

click the “online resources” folder

Select the link “teachers’ hub”

The teachers’ hub page will pop up

Scroll to the bottom and click the smart exchange link

The smart exchange webpage will pull up

In the search box you can search an lesson topic

These lessons and activities were all made by other teachers

you can also search by standards on this page too

click the “standards correlated lessons” up at the top

Under the smart exchange there is also a teacher networking chat page. You can chat and communicate with other teachers about smart technologies and lessons.

### Smart Software

A list of some programs that work well with smart boards:

Smart Draw

Boardmaker Plus

Smart Idea Concept Mapping

Building the Day

Kurzweil 300

XplanaBook

Adaptive curriculum

Many more

Look at this website for more educational software: HYPERLINK "<http://www.education.smarttech.com/ste/en-US/Ed+Resource/SAP/Find+your+title/>" <http://www.education.smarttech.com/ste/en-US/Ed+Resource/SAP/Find+your+title/>

### Online Classroom Resources

Found under teacher resources

This is the webpage: HYPERLINK "<http://www.education.smarttech.com/ste/en-US/Ed+Resource/Classroom+resources/default.htm>" <http://www.education.smarttech.com/ste/en-US/Ed+Resource/Classroom+resources/default.htm>
