

INTEGRATED SCIENCE GROUP MAJOR FOR ELEMENTARY AND MIDDLE SCHOOL TEACHING (K - 8)

Updated May 2019

The **Integrated Science major** (State Code: DI) for Elementary Certification consists of **38 credits** distributed over three areas of emphasis: Life Science, Earth and Space Science, and Physical Science. The courses must include significant laboratory experiences.

Teacher Candidates for certification in this major must pass the Michigan Test for Teacher Certification (MTTC) Elementary Exam (Test #103). Teacher candidates are strongly recommended to also take the Elementary Integrated Science exam (Test #093) for marketability purposes. MTTC content exams should not be taken until 90% of course work in the subject area has been completed. Study guides are available at the MTTC website: (Elementary: http://www.mttc.nesinc.com/PDFs/MI_field103_SG.pdf and Elementary Integrated Science: http://www.mttc.nesinc.com/PDFs/MI_field093_SG.pdf).

The courses below meet State standards and have been selected so that teacher candidates will be well prepared for the test. Knowledge must be demonstrated in the following categories in order to successfully pass the MTTC subject area exam:

- | | |
|--------------------------------------|-------------|
| 1. Foundations of Scientific Inquiry | 11-20 items |
| 2. Life Science | 11-20 items |
