To drop the lowest quiz from the quiz totals for the first student, total the quizzes and subtract the lowest quiz (H5):

\[ \text{Sum of quizzes} - \text{Min of quizzes} \]

Total quiz and exam points for first student (L5):

\[ =\text{SUM(H5:K5)} \]

Average for Quiz 1 (D12):

\[ =\text{AVERAGE(D5:D8)} \]

Maximum for Quiz 1 (D13):

\[ =\text{MAX(D5:D8)} \]

Minimum for Quiz 1 (D14):

\[ =\text{MIN(D5:D8)} \]

Total Possible points times 90% (C18):

\[ =\text{L11} \times 0.9 \]

Final letter grade for first student based on percentage of total grade (M5):

\[ =\text{IF(L5} \geq \text{C18},\text{"A"},\text{IF(L5} \geq \text{C19},\text{"B"},\text{IF(L5} \geq \text{C20},\text{"C"},\text{IF(L5} \geq \text{C21,\"D","F"}))}) \]
