

# Back to the Classroom

Open Classes Friday, October 30

*Step into your student's shoes by attending class! The professor for the class you choose to visit is expecting guests. Feel welcome and comfortable in your role as a visitor. Some classes are discussion oriented; others are lecture based, and others are interactive. The type of interaction between the professor and students will vary. Feel free to talk with the professor before or after class. They are happy to spend a few minutes with visitors as time allows. Please make every effort to arrive before the class begins and plan to stay the full time until the class ends. Open to parents and siblings 16+.*
