

HOPE COLLEGE

Faculty Scholarship

2025

Prepared by the Office of the Provost

It is with immense pleasure that I present the Hope College 2025 Faculty Scholarship Report. This compilation showcases the remarkable intellectual contributions of our talented faculty and the vibrant academic community that defines this institution.

These pages document an impressive array of scholarly achievements: peer-reviewed publications, books, creative works, performances, and community-engaged research. These accomplishments reflect the exceptional caliber of our faculty and their unwavering commitment to expanding knowledge and addressing the world's complex challenges.

This collection is a testament to the diversity of thought and scholarship at Hope College. From scientific research to literary analysis, from artistic expression to educational innovations, our faculty's expertise spans the full spectrum of human inquiry. This richness not only creates a dynamic intellectual environment that benefits our students immeasurably but also reflects the diversity of God's kingdom.

The scholarship of our faculty also reflects Hope College's mission to educate students for lives of leadership and service in a global society. The work highlighted in this report, its deep engagement with questions of justice, sustainability, human flourishing, and faith, underscores our institutional commitment to preparing students to make meaningful contributions to these areas of inquiry.

To each faculty member whose work appears in these pages: thank you. Your intellectual curiosity, disciplinary expertise, and commitment to excellence not only enrich our campus community but also significantly enhance Hope's reputation and influence as a leading institution of higher learning. Your contributions are integral to our success.

With profound gratitude,

Gerald D. Griffin, PhD
Provost and Chief Academic Officer
Hope College
