Life Beyond Hope, Work/Life Balance
Location: Graves Auditorium

This session will bring professionals that range from two college professors, a medical doctor, a research scientist and an administrator to share testimonies on the positive impact of undergraduate research and creative performance to their education and careers. Attendees will get to hear the personal journeys on how each panelist reach his/her present career destination and what opportunities still lay ahead. The panelists will also share their experiences on how they balance between work and life as they progress through their work.
